Our photographic prints are not home-printed ink-jet jobs. They are produced by a professional photo lab on Fuji Crystal Archive paper. Standard prints are borderless and printed on a glossy surface. Borders and/or matte surface are available upon request at no extra charge. We can do custom orders, too. Tell us what you want and we'll get it done for you.

We are happy to provide a free web-resolution digital file with every print you buy. Just ask!
